The statistics shown here are compiled by The Jockey Club Information Systems (TJCIS). While every effort is made to prevent errors and omissions, California Thoroughbred cannot guarantee their complete and total accuracy. A dagger (†) indicates that a stallion has been pensioned, an asterisk (\*) that he has died, a dot (•) that he is now standing elsewhere, a number sign (#) that he did not stand in California in 2013 but is standing in the state in 2014, a double dagger (‡) that he is not standing in California in 2014 but will stand in the state in 2015. Freshman sires are highlighted in bold text. Statistics cover racing in North America (U.S., Canada and Puerto Rico), England, France, Germany, Hong Kong, Ireland, Italy, Japan, Mexico, Saudi Arabia and the United Arab Emirates (UAE) only. Racing statistics through September 22, 2014.

These statistics are for active California-based sires with a minimum of 50 foals of racing age, ranked here by their lifetime Average Earnings Index (AEI.) The statistics shown here are compiled by The Jockey Club Information Systems (TJICIS). While every effort is made to prevent errors and omissions, California Thoroughbred cannot guarantee their complete and total accuracy. A dagger (†) indicates that a stallion has been pensioned, an asterisk (\*) that he has died, a dot (•) that he is now standing elsewhere, a number sign (#) that he did not stand in California in 2013 but is standing in the state in 2014, a double dagger (‡) that he is not standing in California in 2014 but will stand in the state in 2015. Freshman sires are highlighted in bold text. In all cases, a sire will remain in the rankings until the year after his last California foals are 2-year-olds. Statistics cover racing in North America (U.S., Canada and Puerto Rico), England, France, Germany, Hong Kong, Ireland, Italy, Japan, Mexico, Saudi Arabia and the United Arab Emirates (UAE) only. Percentages are based upon number of foals of racing age.
